

APOCalypse 2500 Sci-fi Fantasy RPG

This pen and dice Sci-fi Fantasy RPG is set in a 26th century world where magic has returned to human kind's high tech future. Humanity now shares the newly reformed continent of Neo Pangaea with mythical creatures, strange supernatural phenomena and sub-races of human mutant. Normal humans are still the majority species but just barely. The great nations of man laid waste by the cataclysm and a century of war have been replaced by thousands of feudal fiefdoms and small city states. The 26th century earth is now a scattering of futuristic walled cities, primitive villages and outlaw strongholds isolated by a wild country side teeming with strange beasts and deadly hazards. Interspersed are hundreds of arcane settlements from dwarf mines to elf villages and many other strange places some only barely exist in our space-time. In the world of APOCalypse 2500 nearly anything is possible from adventures into unknown catacombs and strange lands to space and time travel.

APOCalypse 2500 is RPG Percentile System™ compatible.
